

He's just one of the millions of children we've helped.

For over 60 years, we have been protecting every child's right to survive and thrive so they can become healthy adults. Be it through education, medicine, clean drinking water or advocacy, we're leading the fight for children's rights in over 155 countries. It's part of our commitment to upholding the Convention on the Rights of the Child, and how we've been able to save more children than any other humanitarian organization.
